Commission is taken from each carrier's own June 2026 statement at the rate that carrier shows, matched to the Doral book by policy number. United Auto is carried at 10% as collected; its separate 3% promotional incentive is excluded. Amounts in parentheses are chargebacks — cancellations, credit endorsements and carrier adjustments — which net against the month.

MVRs of \$43.42 is carrier-charged and is shown as an operating expense rather than inside the carrier sections above, so it is not counted twice: \$8.36 of Pearl MVR costs and \$35.06 of National General loss- and violation-history chargebacks. **220 License Rent, Systems and Cash Payments Owed** are office figures taken from the expense schedule supplied; they appear on no carrier statement.

United chargebacks removed. Six United Auto chargebacks totalling \$1,017.60 have been excluded from this month at the office's instruction: Charlie Hoz \$316.20, Gabriela Liriano \$286.90, Mirloude Petit Frere \$259.80, Ramon S. Torres \$127.20 and two Giovanni Ratto endorsements \$27.50. They remain on United's own statement and in the workbook; only these statements exclude them.
