Basis. Gross commissions are taken from the seven carrier commission statements for July 2026 at the rate each carrier shows, matched to the Doral book by policy number. New Business is the 21 new policies on the July binder sheet; Renewals & Adj. is the 49 renewals plus prior-month activity (endorsements, cancellations, as-collected commission) and carrier adjustments. United Auto and AmWins are booked on the monthly as-collected basis — United at 10% as collected with its 3% promotional incentive excluded, AmWins at 10% of net cash — not on gross written premium.

Operating expenses. MVRs of \$8.36 is carrier-charged (an Ocean Harbor / Pearl MVR cost on Doral's own producer-6883 statement) and is shown here rather than inside the carrier figures above so it is not counted twice. 220 License Rent (\$500) and Systems (\$224) are office figures provided for July and appear on no carrier statement.
