Commission is taken from each carrier's own July 2026 statement at the rate that carrier shows, matched to the Doral book by policy number. United Auto and AmWins are booked on the monthly as-collected basis — United at 10% of premium collected this month (its 3% promotional incentive excluded) and AmWins at 10% of net cash collected — not on gross written premium. Amounts in parentheses are chargebacks — cancellations, credit endorsements and carrier adjustments — which net against the month.

MVRs of \$8.36 is carrier-charged (an Ocean Harbor / Pearl MVR cost on Doral's own producer-6883 statement) and is shown as an operating expense rather than inside the carrier sections above, so it is not counted twice. Kemper UW-report fees (\$42.15) and a Progressive MVR chargeback (\$6.40) sit on the whole-agency statements and are not attributed to Doral. **220 License Rent (\$500) and Systems (\$224)** are office figures provided for July and appear on no carrier statement.
