Net Payable This Period	\$3,966.03
Balance Owed (Beginning)	\$589.41
Less: Payment Applied	— to be entered
Balance Owed (Ending)	\$589.41

Basis. Gross commissions are taken from the seven carrier commission statements for June 2026 at the rate each carrier shows, matched to the Doral book by policy number. New Business is the 18 new policies on the June binder sheet; Renewals & Adj. is the 45 renewals plus prior-month activity (endorsements, cancellations, as-collected commission) and carrier adjustments. United Auto is carried at 10% as collected, with its 3% promotional incentive excluded. MVR / Carrier Fees are the \$32.90 of Kemper UW report fees and \$16.72 of Pearl MVR costs charged on the June statements.

Lines marked "to be entered". License fees, advances paid and cash collected are office records that do not appear on any carrier statement, so they are left open rather than estimated. Balance Owed (Beginning) of \$589.41 is carried forward from the May 2026 statement. Once those figures are filled in, Net Payable and Balance Owed (Ending) will change accordingly.
